

**DEPARTMENT OF DEFENSE
INFORMATION PAPER**

SERVICE/AGENCY: U. S. NAVY

SUBJECT: RFI 21141C1 MULTIPLE AWARD CONSTRUCTION CONTRACT (MACC) IN GUAM; CONGRESSIONAL ACTION TASKER

DATE: 24 November 2015

1. QUESTION/REQUEST: What is the status of this Multiple Award Construction Contract (MACC) in Guam?

RESPONSE: The basic MACC contract expired in May 2015. NAVFAC Pacific is currently working on the renewal contract scheduled to be awarded by 30 Jun 2016.

2. QUESTION/REQUEST: Additionally, what is the Navy's position concerning the allegations of wrongdoing?

RESPONSE: NAVFAC Marianas has determined that silica fume made in China is considered a "component" which makes up less than 50% of the construction material and is authorized in accordance with FAR 25.003 and FAR 52.225-11 entitled "Buy American Act – Construction Materials Under Trade Agreements".

The silica fume made in China has not yet been shipped; however, CORE TECH-AMEC-SKEC LLC has stated they will comply with DFARS 252.247-7023 Transportation of Supplies by Sea clause, and will be shipping the Silica fume on a US Flag Vessel.
